TECHNICAL SKILLS

Languages: C# , Java, JavaScript, TypeScript, C++, Python, SQL
Frontend: Angular, React.js, HTML, CSS, Tailwind CSS, Bootstrap
Backend & APIs: ASP.NET, .NET Core, Spring Boot, Node.js, Express.js, REST APIs
Databases: SQL Server, PostgreSQL, MySQL, MongoDB
Cloud & Tools: AWS, Docker, Jenkins, Git, GitHub Actions, Splunk
Core CS: Data Structures, Algorithms, OOP, Networking, DBMS

WORK EXPERIENCE

S&P Global (Financial Services MNC)

July 2025 – July 2026

Software Developer Apprentice

Noida, Uttar Pradesh

- Developed and maintained full-stack features for the **DebtDomain platform** using **Angular, C# .NET MVC, SQL Server, and REST APIs**, supporting enterprise workflows for syndicated loans and private credit transactions.
- Migrated key **Deal Time workflows from ColdFusion (CFM) to Angular**, redesigning frontend components and integrating backend APIs to improve maintainability and user experience.
- Implemented **role-based access control, user impersonation, and permission management** features, enabling administrators to securely manage user and deal-level access across the platform.
- Resolved **20+ production issues** identified through **CodeQL, SonarQube, and GitHub Actions**, addressing code quality, security vulnerabilities, and CI/CD failures to improve application stability and deployment reliability.
- Optimized a critical **Deal List API**, reducing response time from approximately **2 minutes to 900ms** by improving backend processing and SQL query optimizations.

INTERNSHIP

ThriftyX Pvt. Ltd.

April 2025 – July 2025

Software Engineer Intern

Hyderabad, Telangana

- Developed the **E-commerce Platform** from scratch as a full-stack application using **Next.js, React.js, Tailwind CSS, Node.js and REST APIs**, building responsive frontend features and integrating backend APIs, database workflows, and core e-commerce functionality.
- Integrated **online payment functionality** and optimized checkout and API workflows, reducing API response time by **25%** and improving the overall purchasing experience.
- Optimized frontend components, API requests, and data-loading workflows in **React.js**, improving application performance by approximately **30%** across key user-facing pages.

PROJECTS

Personal Portfolio Web Application — [GitHub](#) — [Live Demo](#)

.NET 8, ASP.NET Core, Angular 17+, TypeScript, SQLite, Docker, Tailwind CSS

- Built a full-stack portfolio website using **ASP.NET Core Web API** and **Angular 17+**, with a responsive frontend built using TypeScript.
- Created **REST APIs** using ASP.NET Core, Entity Framework Core, and SQLite, with Swagger documentation, error handling, and database integration.
- Built interactive UI components using **Angular, RxJS, Tailwind CSS, and Three.js**, including 3D animations, dark/light mode, and smooth scroll effects.
- Used **Docker and Docker Compose** to run the application, and added frontend and backend tests with **Jasmine, Karma, and unit testing** while using ESLint and Prettier for code quality.

Real-Time Chat Application — [GitHub](#) — [Live Demo](#)

React, Node.js, Socket.io, MongoDB, JWT

- Built a full-stack real-time messaging platform supporting secure authentication, instant messaging, and online presence tracking.
- Built REST APIs using **Express.js** and integrated **MongoDB** for efficient message storage and retrieval.
- Implemented **JWT authentication**, WebSocket communication using **Socket.io**, and a responsive React frontend.
- Tested and debugged application functionality to ensure reliable communication and scalability.

Universal File & Format Parser — [GitHub](#)

Python, pytest, Tesseract OCR

- Built a robust **Python library** from scratch for deterministic file format detection and secure content scanning across PDF, DOCX, XLSX, CSV, XML, YAML, images, and ZIP formats.
- Engineered security scanning to detect malicious file content including macros, embedded scripts, zip bombs, and path traversal, returning structured error records instead of raising exceptions.
- Validated correctness across all supported formats with a full **pytest**-based automated test suite.

EDUCATION

Lovely Professional University

B.Tech in Computer Science and Engineering – CGPA: 7.64/10.0

Phagwara, Punjab

Aug 2021 – Jul 2025
